

Company Profile

Black Pharma was founded in August 2020 with a vision to see a greater representation of black professionals across the Pharmaceutical industry. Data shows that black employees remain one of the least represented groups within the Pharmaceutical & Life Sciences industry, with even lower representation at more senior levels.

At Black Pharma, we work to establish racial equality within the industry by creating more accessible and supportive pathways for black students, graduates and professionals to achieve their career ambitions. At the heart of our organisation is our mission to “**Create Access**” and “**Enable Success**”.
